

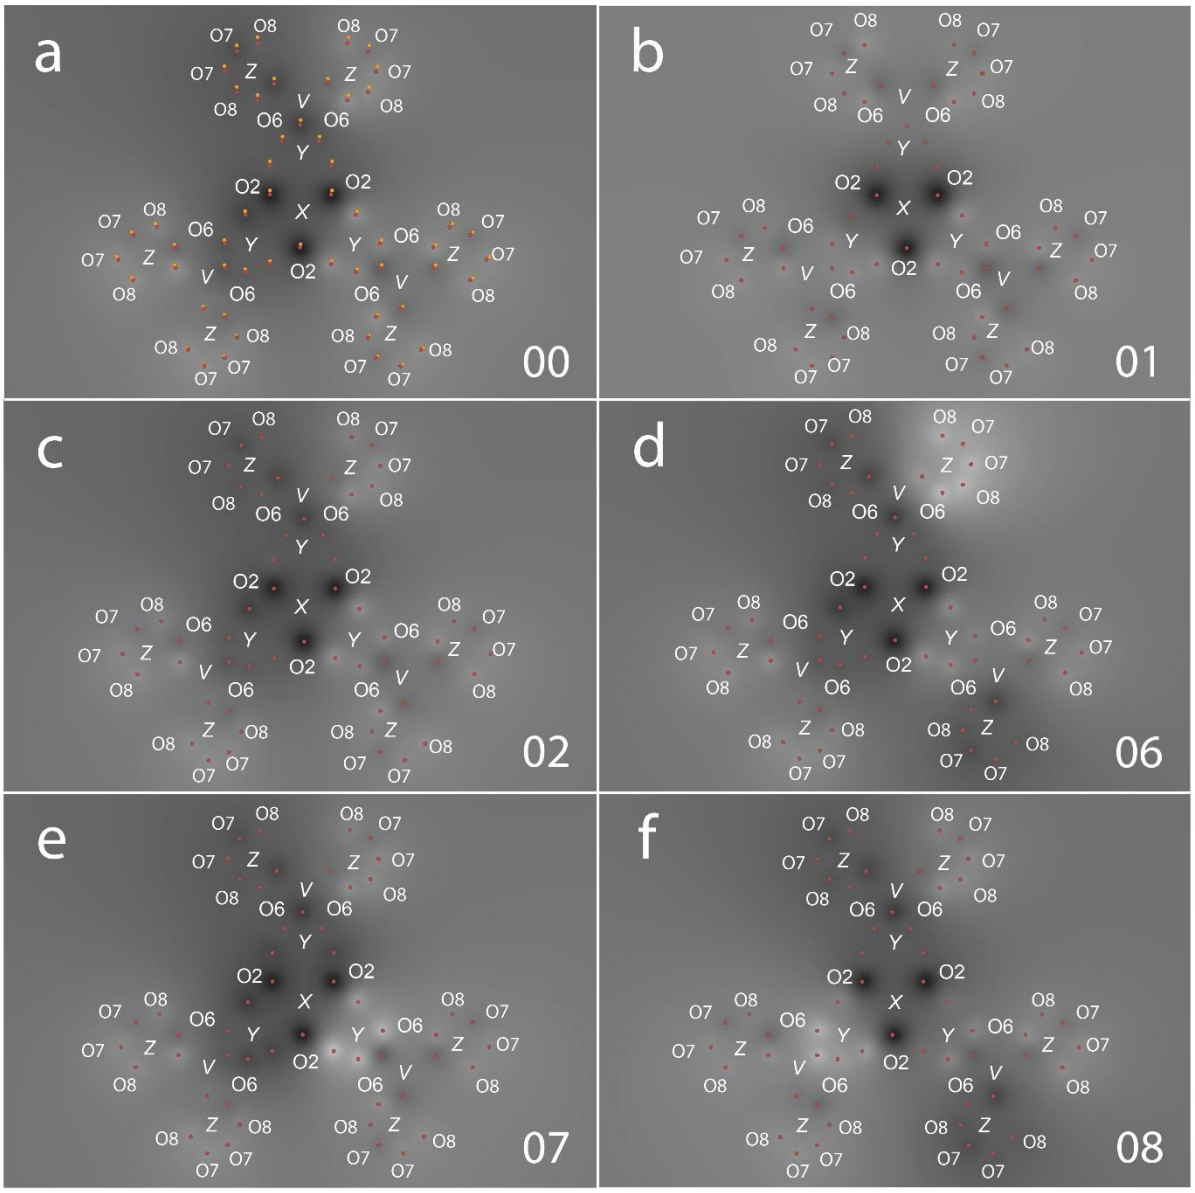

Fig. S1 The bond valence topological fields of components 1-8. Light shades indicate a high bond valence, and dark shades indicate a lower bond valence.

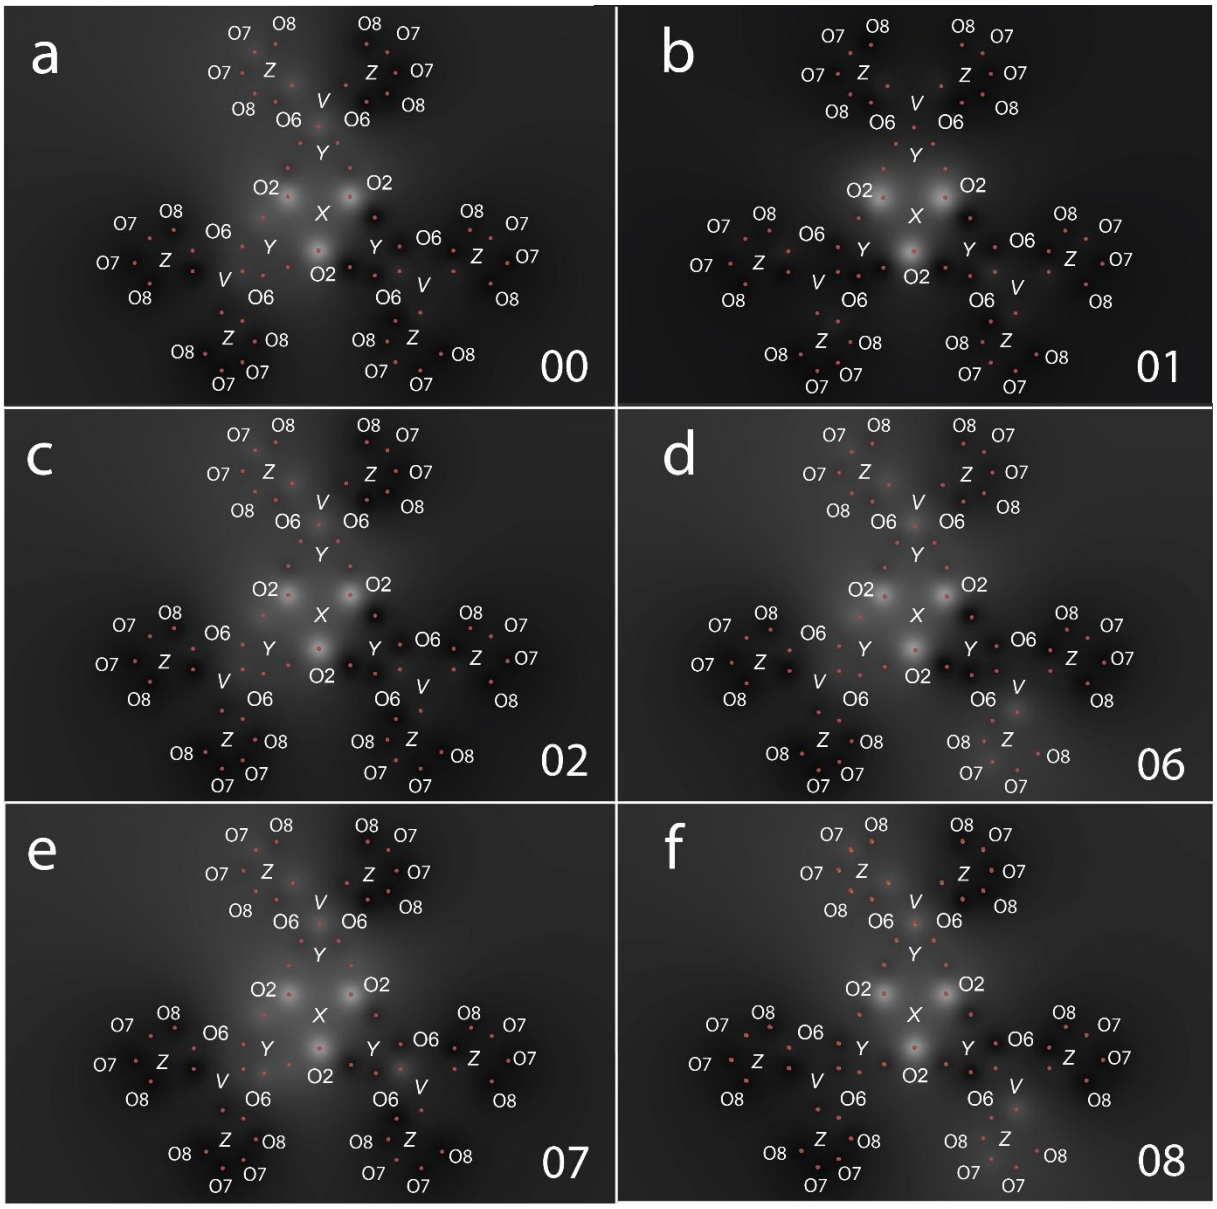

Fig. S2 The bond length topological fields of components 1-8. Light shades indicate longer bonds, and dark shades indicate shorter bonds.

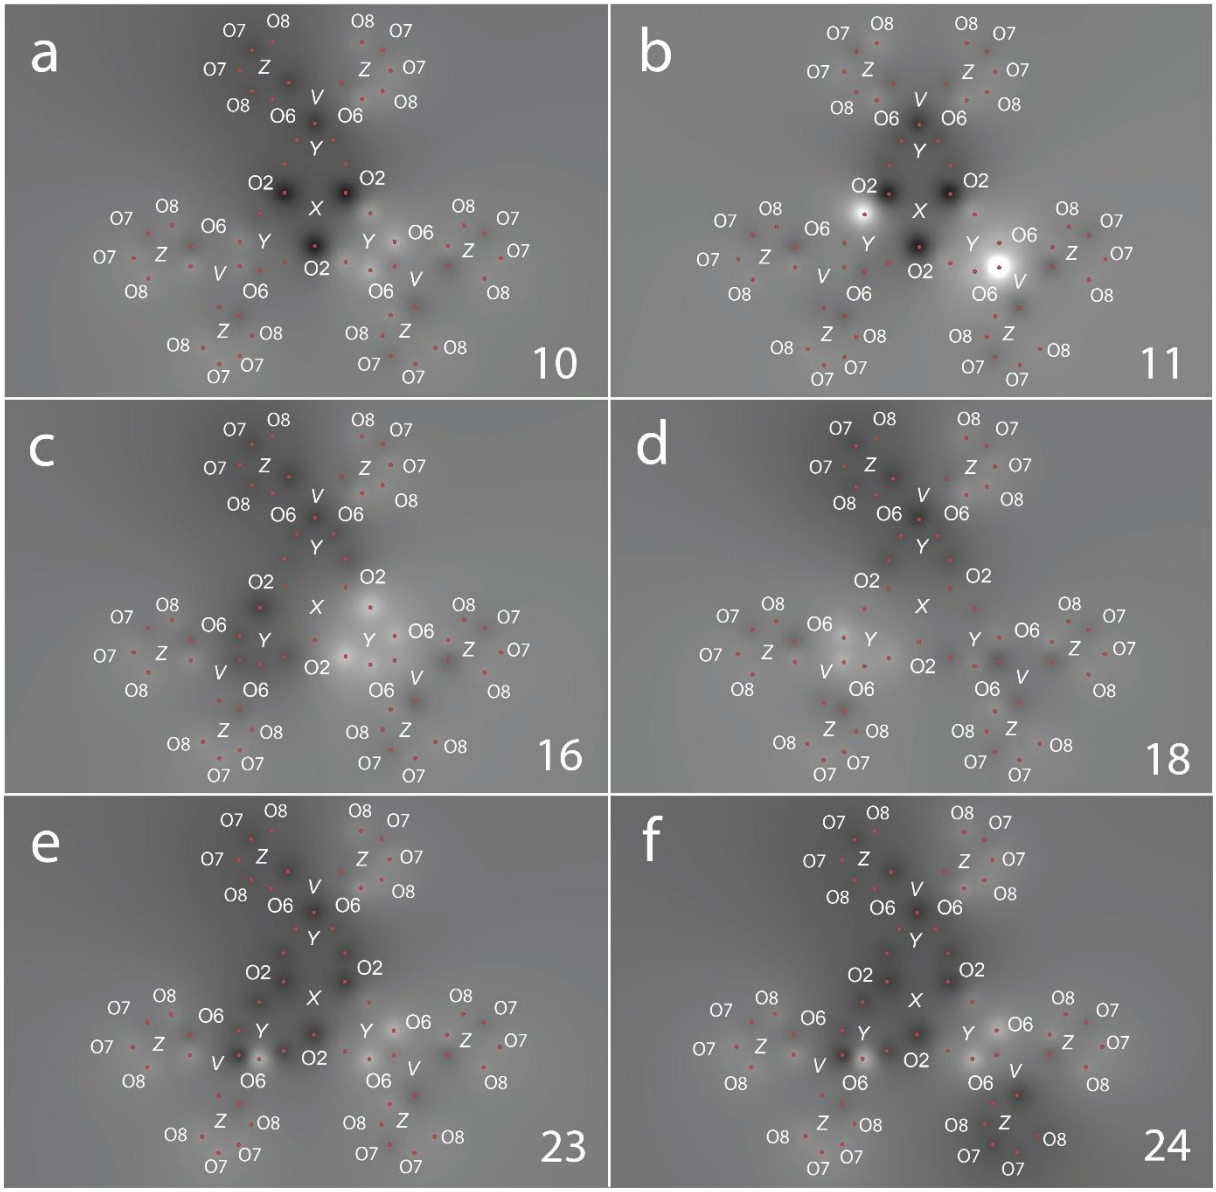

Fig. S3 The bond valence topological fields of components 10-24. Light shades indicate a high bond valence, and dark shades indicate a lower bond valence.

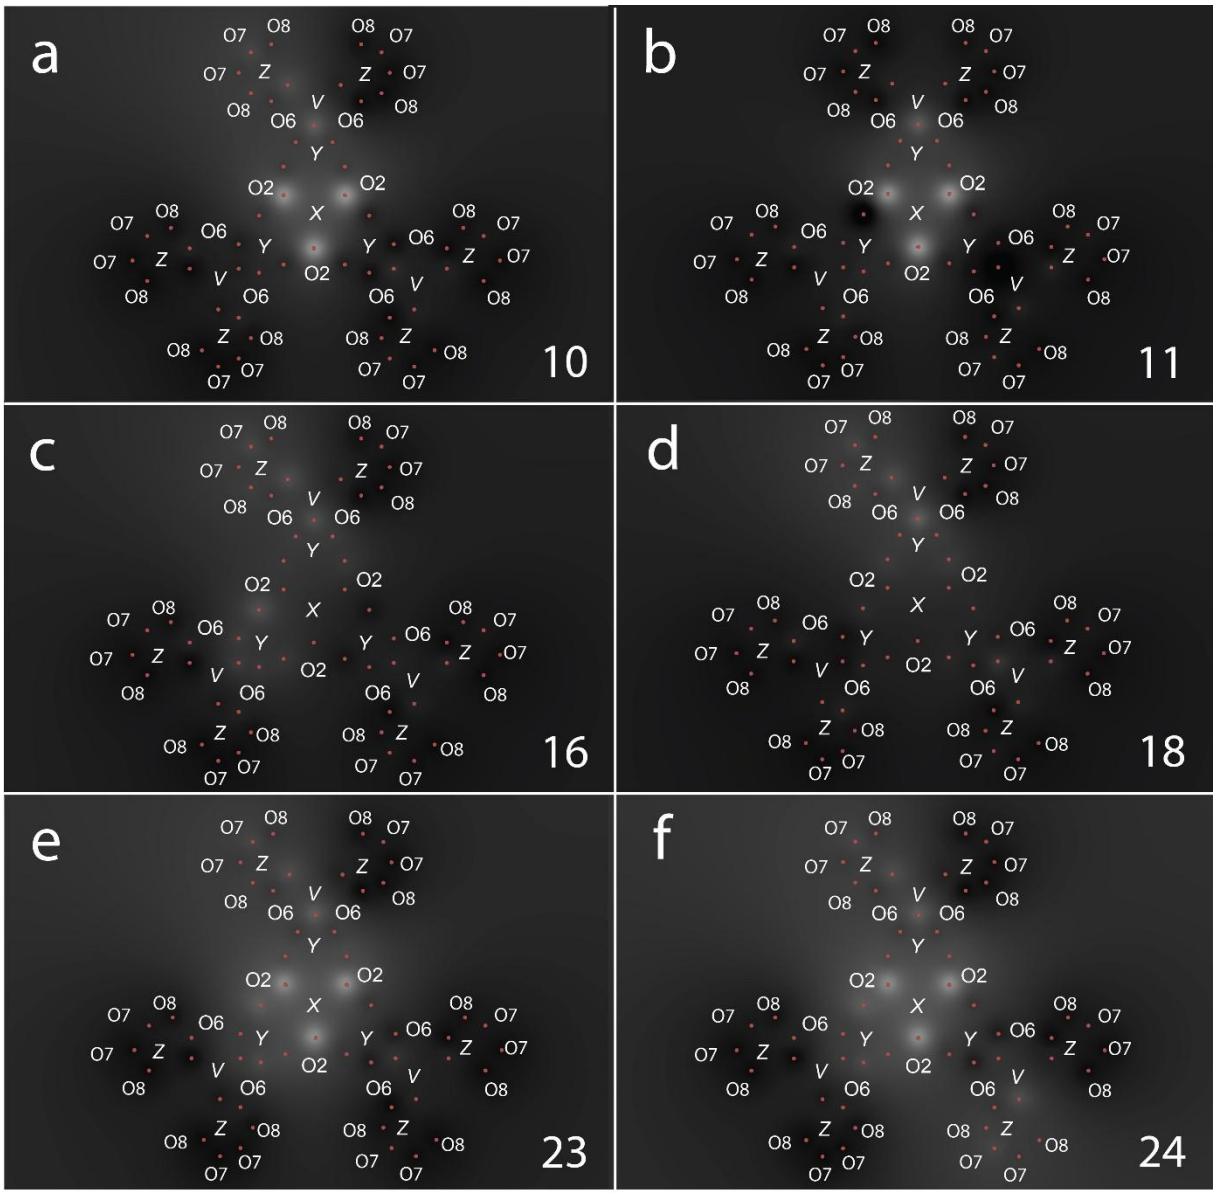

Fig. S4 The bond length topological fields of components 10-24. Light shades indicate longer bonds, and dark shades indicate shorter bonds.
